Junior Software Developer (RPG)

I'm a dedicated professional with a diverse skillset and over a decade of experience in patient, student, and customer-facing roles. I'm seeking to utilize my programming knowledge and creativity as a junior developer on the IBMi platform. I thrive on learning new technologies and skills, with a particular interest in the modernization of IBM iSeries/AS400 software.

Skill Highlights:

- | | | |
|------------------------------|---------------------|------------------------------|
| • RPG ILE/Free Form/SQLRPGLE | • Java Development | • JavaScript, PHP, CSS, HTML |
| • Access Client Solutions | • C# Development | • Agile/Scrum/Waterfall SDLC |
| • Rational Developer for i | • SQL Server, MySQL | • Detailed Documentation |

Experience

Developer Intern – 2024 to Present
Session Musician / Audio Engineer – 2021 to Present
Cardiac Telemetry Specialist – 2020 to 2021

Level III Pharmacy Tech / Liaison – 2018 to 2020
Pharmacy Technician – 2016 to 2018
College Tutor / Administrative Aid – 2012 to 2016

Intern | CDR Software | Remote

- Provided technical support for iSeries-based software suite designed for managing distribution operations.
- Identified deficiencies in documentation and worked with technical writers to resolve them.
- Used critical thinking and investigation skills to identify solutions to customer issues which lacked sufficient documentation.

Session Musician / Audio Engineer | Freelance | Remote

- Developed and sustained a client base through strategic marketing on digital platforms and leveraging personal networks.
- Engaged in collaborative projects with producers, composers, and fellow musicians to create original songs and arrangements.
- Specialized in bespoke composition, delivering tailor-made songs to meet diverse client specifications.
- Offered comprehensive audio engineering services, encompassing mixing, mastering, audio editing, and sound design, utilizing professional equipment and software.

Cardiac Telemetry Technician | Trinity Health Hospital | Muskegon, MI

- Served as a vital member of a healthcare team which consisted of over 20 professionals and specialists.
- Interpreted and documented patient heart rhythms, including dysrhythmias, using ECG technology and specialized software.
- Alerted resuscitation teams to assist patients experiencing life-threatening dysrhythmias or critical changes in vital signs.
- Sanitized medical equipment in accordance with hospital infection control procedures.

Level III Pharmacy Technician | Trinity Health Pharmacy | Muskegon, MI

- Coordinated with teams of over 25 professionals consisting of physicians, pharmacists, and RN case managers to determine optimal medication regimen for each unique patient circumstance.
- Conducted formulary queries and adjudication with insurance companies to ensure financial sustainability for patient medication therapies.
- Educated patients and caregivers on medication usage, side effects, and interactions.

Pharmacy Technician | Trinity Health Pharmacy / Meijer Pharmacy | Muskegon, MI

- Ordered, received, and shelved pharmacy inventory.
- Transcribed prescriptions given over the phone by medical practitioners.
- Conducted point-of-sale transactions and reconciliation.

College Tutor / Administrative Aid | Muskegon Community College | Muskegon, MI

- Provided administrative support to faculty in the College Success Center.
- Tutored college students in subjects such as statistics, math, and English composition.
- Responsible for proctoring student exams.

Achievements

- Developed and implemented an orientation program for new technicians to ensure consistency in processes, which promoted both efficiency and patient safety | Trinity Health Pharmacy
- Advanced to Pharmacy Liaison within 3 years, pioneering a new role in the organization which increased Meds to Go program utilization by over 50% | Trinity Health Pharmacy
- Trained as an Epic Systems super user and assisted in facilitating nationwide EMR transition | Trinity Health Pharmacy
- Selected for a position as a Student Liaison on the COMMON Education Foundation board where my input was used to shape student outreach strategies.
- Completed my college PHP course 7 weeks early, finishing assignments meant to take weeks within days.

Education

Muskegon Community College ● **Software development with a focus on RPG | Education | Nursing**

Meijer Pharmacy Technician Training Program ● **Pharmacy Technician License**
